# your car...

We have discovered the following damages on your car. They can be fixed with smart**repair**.

Standard Ford text

Dealership:

smart**repair**

a small damage is no longer a big problem

what is **smart** ?

SMART Repairs complement traditional repairs and are offered as a supplementary service to our customers, for instance in connection with the ordinary routine service visits.

In short, the Smart Repairs are repairs that can be done very quickly, often on a while-you-wait basis, and at low cost, while at the same time meeting the high Ford quality standards – thus providing you with a cheap, fast and state-of-the-art alternative to the traditional replacement of parts.

All work is carried out by trained Ford specialists only. This is your guarantee that the repair work will always be first rate.

In the event that we are unable to fix the damage with smart repair you will receive a quotation for repair in the Ford Approved Bodyshop.
